On-Site Branding Opportunities

At the JW Marriott – Nashville there is a variety of visual branding opportunities in high-traffic areas. The exact details vary a bit between them, however, generally speaking the following hold true.

- Sponsor will provide a high-quality, flattened (at least 200 dpi resolution), print-ready PDF file. Graphics requiring contour cutting must include vector cut lines, which will allow for precise printing and cutting.
- Graphics should be created to exact dimensions. If there are size limitations which will impact file submission, please ensure proper proportions are accounted for when scaling graphics. Only scale files to a half, quarter or eighth of the size. This will allow our production team to print at full size.
- Please do not include crop marks as the removal process will then slow down production time.
- Please name the files to coincide with the space being branded.
- If trying to match color critical Pantone, specific swatches need to be incorporated into the file. (If the file is CMYK mix with no Pantone definitions, we can only achieve an approximate simulation at best.)

Exhibitors are cautioned to have a representative in attendance during set-up hours. The possibility of theft or "mysterious disappearance" of equipment will be greatly reduced if exhibitors take this precaution. All exhibitors are well advised to follow this same procedure when dismantling exhibits. Be sure a representative is present until boxing and crating of exhibit materials has been completed. Cosmetic Surgery Forum and The JW Marriott are not responsible for any loss, damage, or theft of exhibitor property. It is highly recommended that a representative be present at their booth thirty minutes before the opening of the exhibit hall to ensure the safety of material goods from other exhibitors and attendees.
